

ICONIC TRUSTED-POWER SOLUTIONS

ITS POWER & INFRASTRUCTURE PVT. LTD

Solution To Power Outages.....

Company Profile

ITS POWER & INFRASTRUCTURE PVT. LTD

With the motto of 'Technology we need ,technology we create & technology we live'. We make great efforts to achieve customer's satisfaction and upgrade our products to become the most reliable brand in the industry .

About the Company

- We make great efforts to achieve customer's satisfaction and upgrade our products to become the most reliable brand in the industry .
- AMC (ANNUAL MAINTAINANCE CONTRACT) - COMPREHENSIVE & NONCOMREHENSIVE

Our Mission and Vision

Mission

To provide safe, efficient, and durable power equipment that meets customer needs and ensures continuous, reliable performance

Vision

Provide Innovative products and services with state of the art technology to enrich and uplift our customer's quality of life .

Our Offered Services

Products Range

- ◆ Battery Charger
- ◆ Industrial Inverter
- ◆ Online UPS
- ◆ Stabilizer
- ◆ Power Supply

Battery Charger

- Battery Charger
- DC Power Supply
- Variable DC Power Supply

Features -

- SCR Based Charger / DSP Based Design
- Input Isolation Transformer
- Can be set Voltage & Current manually as per Qty of Battery & AH of Batteries
- Reverse Polarity protection
- Over Charge protection
- SMPS based charge for single battery also available

Industrial Inverter

- 5KVA to 15KVA Inverter(3Ø-3Ø)
- 10KVA to 200KVA Inverter(3Ø-3Ø)
- Lift Inverter (3Ø-3Ø)

Features -

- DSP Controlled technology for Inverter
- No Power Consumption once batteries get fully charge
- Separate Charger
- Phase fail/ phase reverse protection
- Change Over time settable
- Customize Battery Configuration
- Inbuild Isolation Transformer

Online UPS

- 5KVA to 15KVA Online UPS(1Ø-1Ø)
- 10KVA to 50KVA Online UPS(3Ø-1Ø)
- 10KVA to 200KVA Online UPS(3Ø-3Ø)

Features -

- True Online Double Conversion Technology
- DSP Based Design
- Minimal Noise (< 45db)
- Real Crest Factor 3:1 – Heavy Surge Capability
- True Sine Wave Irrespective of Load
- High regulation on step load
- Thyristor Based Full Wave Rectifier /
- PFC Based IGBT Controlled Charger

Stabilizer

- Digital/Analog Control Stabilizer
(3Ø-3Ø)(1Ø-1Ø)
- DSP Controlled Stabilizer
- AVR (Automatic Voltage Regulator)

Features -

- DSP/Analog-Digital Controlled Technology
- Available ranges : 1KVA to 2000KVA
- Systems are available in both air cool and oil cool depending on the rating of the systems
- Wide input range of stabilizers
- Efficiency =97%
- High Correction speed 75V per second
- Auto/Manual modes available
- Output voltage could be varied to +_5V using nob at front side

Frequency Converter

Features -

- Designed & Customized as per requirement
- 3p-3p frequency converter available
- 1p-1p frequency converter available
- Available range : 60HZ to 400 HZ
- Inbuilt Isolation transformer

Isolation Transformer
